

About the Authors

Herman Oosterwijk, MS, MBA, is president of OTech, and serves as the company's lead consultant and overall project manager.

Mr. Oosterwijk's familiarity with the PACS industry and technology is due to his field experience as a PACS program and business unit manager with Philips, AT&T, and Kodak. He teaches and publishes extensively on PACS and the DICOM standard. He has participated in the DICOM standardization effort since its inception in 1984 in various positions and working groups.

Paul T. Gihring, BS, PE, is chief instructor and technical consultant at OTech. Prior to OTech, Mr Gihring spent 25 years with General Electric Medical Systems. He has a strong background in networking and software engineering, and has practical experience implementing DICOM software in GE's nuclear medicine product line. He also has had extensive involvement with the DICOM standardization effort.

About OTech Inc:
